

EURE- CART has received funding from the *European Union's Horizon 2020 research and innovation programme* under grant agreement No 733297

Workshop

Cell therapies in the treatment of hematological malignancies

7.2.2018

Program:

13:30-14:00

RNDr. Matouš Hrdinka, Ph.D.

Introduction into immutherapies

14:00-14:30

Mgr. Jiří Eitler, Ph.D., Experimentelle Transfusionsmedizin Technische Universität Dresden

Utilizing NK cells for cancer immunotherapy

14:30-15:00

MUDr. Pavel Otáhal, Ph.D., Všeobecná Fakultní Nemocnice v Praze, ÚHKT, Praha

Transposons in gene engineering of CAR T cells

15:00-15:30

Coffee brake

15:30-16:00

MUDr. Tomáš Jelínek, Ph.D.

CD38 as a promising target in AML

16:30-17:00

MUDr. Serhyi Forostyak, Ph.D.

The potential of mesenchymal stem cells in regenerative medicine

16:00-16:30

MUDr. Zdeněk Kořístek, Ph.D.

Current stage and future perspective of cell therapies in FNO
